

The official GSM remembrance plaque is now available. The plaque is made of solid bronze, cast in the USA. The plaque features the traditional gold star and the chosen official image of the Gold Star Mothers' National Monument statue.

The image is of a Mother grasping the dreaded Western Union telegram in her hand. She is looking off into distant, but cherished memories of her warrior son. Grief stricken, with tears flowing as a sign to us who will never know of her grief, her sacrifice.

Our nations greatest heroes and their mothers can be honored by being acknowledged and remembered in this special way.
